

The Greater Palais Royal Adds 42,000 Square Feet

Continued

Up 11th and Toward 10th

The marvelous growth of the departments for furniture and other home needs calls for a Greater Palais Royal.

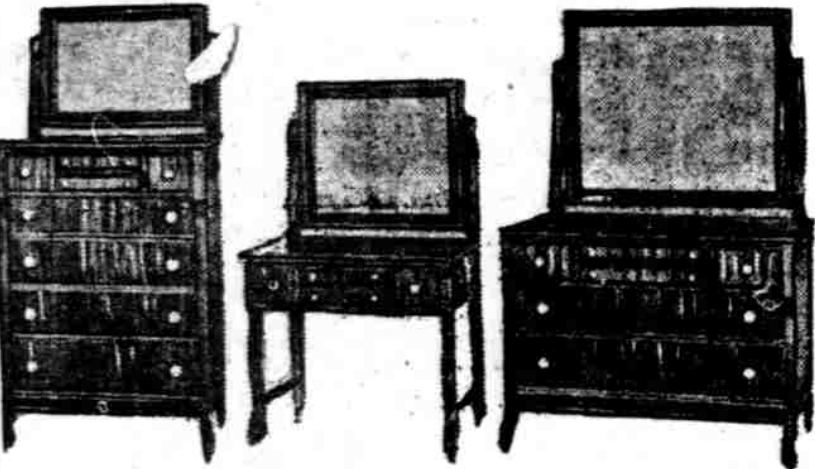

The new building adjoins the present one—up Eleventh street and runs parallel with G street, rear of the present store, toward Tenth street.

With the completion of the new building and the tearing down of the north wall of present Palais Royal, a vastly greater store is assured for furniture and home needs.
